

TESTIMONIALS

"I just read the report you sent me. Could not agree more on your assessment. You hit the nail on the head." —Max Buckley, Pro Golfer

"Sounds complicated but ends up Genius - Results!"
—Nick Marona, President, Progresso Soups, South America.

"Dr. Bob's work in Life Science is impressive. The Laws of Potential's ability to bring about clarity and understanding, and then applying it to potential development, is exciting and profound." —Les Fehmi, Ph.D., Pioneer in the field of biofeedback, affiliate member of the Department of Medicine at Princeton University Medical Center.

"I've collaborated with Bob for nearly two decades. I have found the Laws of Potential model to be intelligent, comprehensive and useful in emerging new insights and fundamental understanding about people, events and the mysteries of science and life. I often use Natural Thinking principles to comprehend complex social and economics issues, to deal more effectively with everyday problems, and to answer daunting questions about life purpose and meaning." —Steve Beller, Ph.D., Clinical Psychologist and President of National Health Data Systems, Inc. (NHDS)

"He told me, "You can do this." I said, "I can't." He repeated himself — so did I. Eventually, he prevailed and I ended up achieving significant levels of hidden potential. He is a true Entelechist, a master of developing peoples potential and reading situations. I now run one of our five auto dealerships, with over 60 employees, with the planning, organizing and functional skills that Dr. Bob's programs profess." —Sal Pepe, Successful Businessman, Owner and Manager of The Pepe Auto Group, Westchester County, NY.

The Potentia Achievement Program

What if you could turn a key and see the patterns underlying your life decisions?

See the impediments to your personal growth or financial stability?

Not only does Natural Intelligence and Thinking (NaTI) present programs designed to accomplish these, but it also provides a means for continuous support. That is what the Potential Forum offers and more!

Potential Forum is a setting which enables people to achieve their potential by way of an ongoing program.

The Program brings together your hosts Dr. Bob Flower, his colleagues and other participants who have undergone NaTI Assessments.

By this system all participants "speak the same universal language through NaTI." We all understand each other on a number of levels.

The Individual Diagnostic Process

- 1. Discover your Master Issue; The Underlying Factor that Drives or Restricts you.**
- 2. Determine which of your Thinking Skills are Weak and Strong.**
- 3. Structure a unique Playbook for Achievement, by incorporating the elements above into an Action Plan for Success.**

Our Mission is to Help You Achieve!

What to Expect from Us

- The Tools to Fix Bad Decision Making
- Chaos Becomes Comprehension
- We Convert Information to Understanding and Clarity
- We Graphically Display Information in ways that Reveal Underlying Patterns, Judgements and Concepts
- Expand your Multiple Intelligence
- On Going Support

You Have The Potential for Fulfillment

We each possess an incredible spectrum of intelligences that can be applied to any problem in our lives. Yet too many of us follow bad plans or suffer over our decisions and indecisions.

We Have the Keys to Fulfilling That Potential

Dr. Bob Flower provides a unique, individualized, method for understanding and improving your life choices. Why is it far more powerful than any other self growth system? Because we have discovered the Laws of Potential that underline achievement.
