

TESTIMONIALS

"Dr. Bob's work in Life Science is impressive. The Laws of Potential's ability to bring about clarity and understanding, and then applying it to potential development, is exciting and profound." —Les Fehmi, Ph.D., Pioneer in the field of biofeedback, affiliate member of the Department of Medicine at Princeton University Medical Center.

"Robert took my findings of the cellular development process and converted those principles into a language of Potential, a sort of Theory of Everything. This is something the great thinkers of history were not able to accomplish. This puts him in some very unique company." —Dr. Derald Langham, Award winning Geneticist, recipient of the Venezuelan Order of Merit of Performance Award.

"As an advisor to my clients, I'll deal with stresses on a physical level, as a clinical nutritionist, on a biochemical level. The thing I find interesting about the Laws of Potential is that I'm able to actually deal with emotional issues, dealing directly with the system that Dr. Bob developed; the 13 natural intelligences. And quite often a person will say, 'why does the same thing keep happening to me', it's because they have this hidden belief system. Dr. Bob's model allows us to get into those hidden systems, those unconscious belief systems and uncover it. You can see immediate major changes take place with people which will manifest both on a physical, chemical, emotional, and spiritual level." —Dr. James Striano, D.C., Hudson Valley Chiropractic & Nutrition

"I've collaborated with Bob for nearly two decades. I have found the Laws of Potential model to be intelligent, comprehensive and useful in emerging new insights and fundamental understanding about people, events and the mysteries of science and life. I often use Natural Thinking principles to comprehend complex social and economics issues, to deal more effectively with everyday problems, and to answer daunting questions about life purpose and meaning." —Steve Beller, Ph.D., Clinical Psychologist and President of National Health Data Systems, Inc. The Laws of Potential

This program gives you the training to understand each of the 3 components and 13 principles of the Laws of Potential, as well as how to apply what you've learned.

Interaction with the Laws of Potential will provide unique insights above and beyond anything you have ever encountered.

This program utilizes Natural Intelligence and Thinking Principles which will expand and increase your thinking and cognitive abilities.

This incredible finding enables you to follow some simple and sound principles which lead to clarity, order and well prioritized insights concerning life decisions.

Restrictive notions are identified and addressed so as to provide greater thinking and intelligence skills.

These principles will clearly open your mind to NATURAL Thinking vs "Normal or Average" mind sets.

This program will provide clarity and understanding on a significant level.

Our Laws of Potential Will Provide You With An Action Program For Unparalleled Achievement

Most people have the mistaken notion that thinking is linear. The fact is that thinking is actually holographic. When you arrange your thinking with this model you dramatically increase your mental abilities.

What Can It Do for You?

- Enhance Thinking Skills
- Simplify Problem Solving
- Introduce the 13 Natural Intelligences
- Provide Ordered and Structured Thinking
- Teaches Abstract, Critical and Multiple Types of Thinking Systems
