

TESTIMONIALS

"I just read the report you sent me. Could not agree more on your assessment. You hit the nail on the head."
—Max Buckley, Pro Golfer

"This system will surely assist in Potential Achievement."
—H. Bradley Cox, Olympic oversight Ice Skating Judge.

"He told me, "You can do this." I said, "I can't." He repeated himself -- so did I. Eventually, he prevailed and I ended up achieving significant levels of hidden potential. He is a true Entelechist, a master of developing peoples potential and reading situations. I now run one of our five auto dealerships, with over 60 employees, with the planning, organizing and functional skills that Dr. Bob's programs profess." —Sal Pepe, Successful Businessman, Owner and Manager of The Pepe Auto Group, Westchester County, NY.

"As an advisor to my clients, I'll deal with stresses on a physical level, as a clinical nutritionist, on a biochemical level. The thing I find interesting about the Laws of Potential is that I'm able to actually deal with emotional issues, dealing directly with the system that Dr. Bob developed; the 13 natural intelligences. And quite often a person will say, 'why does the same thing keep happening to me', it's because they have this hidden belief system. Dr. Bob's model allows us to get into those hidden systems, those unconscious belief systems and uncover it. You can see immediate major changes take place with people which will manifest both on a physical, chemical, emotional, and spiritual level." —Dr. James Striano, D.C., Hudson Valley Chiropractic & Nutrition

"I've collaborated with Bob for nearly two decades. I have found the Laws of Potential model to be intelligent, comprehensive and useful in emerging new insights and fundamental understanding about people, events and the mysteries of science and life. I often use Natural Thinking principles to comprehend complex social and economics issues, to deal more effectively with everyday problems, and to answer daunting questions about life purpose and meaning." —Steve
